

### Fast-Cure® Anaerobic Adhesive-Style Connectors

#### **APPLICATION**

Fast-Cure anaerobic adhesive-style connectors are designed for quick and easy termination in the field. Fast-Cure connectors are available in single-mode and multimode versions in LC, SC, and ST<sup>®</sup> styles. Fast-Cure connectors are designed for indoor and outdoor applications where reliability, durability, and ease of installation are an important consideration. Typical installations are in premise LAN environments, or anywhere adhesive-style connectors are specified.

Pictured (left to right): ST Connector, SC Connector, and LC Connector.

#### **SPECIFICATION**

The Fast-Cure anaerobic adhesive-style fiber optic connector shall meet or exceed the requirements described in ANSI/TIA-568-C.3 and 604 standards. The connector shall be field-polished, field-installable, and does not require a curing oven or proprietary tool to facilitate the termination of the fiber. The connector shall be available in LC, SC, or ST single-mode or multimode configurations terminated on 900 µm buffered fiber or 3-mm jacketed fiber. Typical connector return loss shall be greater than 25dB (multimode) and 55dB (single-mode).

#### FEATURES

- Typical termination in less than three minutes
- · Low insertion loss connection
- · Higher fiber retention than mechanical connectors
- No curing oven or proprietary tool required
- Compatible with MOS, QuickPort<sup>®</sup>, SDX, and LightSpace<sup>®</sup> adapter plates
- · Accessory for duplex clip sold separately

#### **DESIGN CONSIDERATIONS**

- · Single-mode and multimode versions
- · Precision pre-radiused zirconia ferrules
- Supports 900 µm buffered fiber or 3-mm jacketed fiber
- · High cable retention crimp for jacketed fiber
- · Recommended for indoor and outdoor usage
- · Body of ST connectors are metal

#### **PERFORMANCE SPECIFICATIONS**

| Parameter                                 | Value                         |  |  |
|---|-------------------------------|--|--|
| Insertion Loss (Single-mode or Multimode) | Typical: 0.2dB<br>Max: <0.3dB |  |  |
| Return Loss (Single-mode)                 | Typical: >55dB                |  |  |
| Return Loss (Multimode)                   | Typical: >25dB                |  |  |
| Operating Temperature                     | -40 °C to +85 °C              |  |  |

#### STANDARDS COMPLIANCE

- Meets ANSI/TIA-568-C.3 performance requirements
- Meets ANSI/TIA-604-2 (ST), -3 (SC), -10A (LC) Connector Intermateability Standards
- Meets GR-326; General Requirement for Single-mode Connectors

#### **COUNTRY OF ORIGIN**

Taiwan
