MODEL CODE

# Verge P3000 Retrofit

Standard Base to Narrow Frame & Lid

### 1. PRODUCT SUMMARY

The Primex Verge P3000N WiFi transparent Media Distribution Enclosure for structured wiring brings reliability when managing today's inside cable system requirements. Its flexible design provides a convenient, lockable and centralized location for easy installation and distribution of multi-play services within residential and commercial premises.

- Primex recommends retrofitting narrow frame and lid only when standard base has already been installed.
- For future installations in tight spaces and side by side, Primex recommends the complete narrow frame, lid and base model (P/N: 125-1265)

### 2. PRODUCT DIMENSIONS

Inside: H 30"/W 14"/D 3.5"  
Outside: H 31.8"/W 15.9"/D 4.6"

### 3. FEATURES & BENEFITS

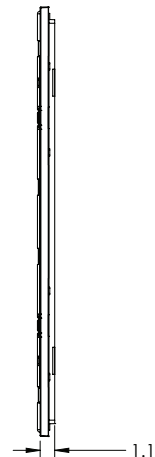

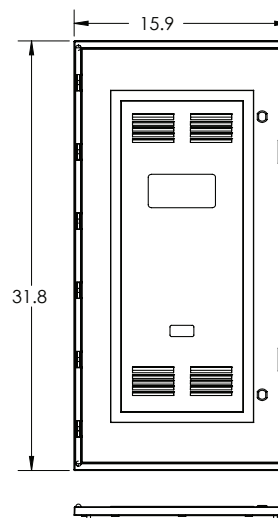

- Large internal cavity ideal for holding broadband hardware such as a modem, ONT, UPS and fiber accessories for the connected home.
- Engineered WiFi transparent ABS plastic for up to 15x increased wireless signal pass through.
- Narrow bezel for shared side-by-side stud mounting and corner installation.
- Compatible with the Patented Primex Mounting System for quick and easy installation of equipment.
- Lightweight for easy transport and installation.
- Optional dual locks for restricted access.
- UL Listed and North American made for reliability.
- Enclosures should not be installed in a fire rated wall.

### 4. CONFIGURATIONS

Part #	Description
125-1275	P3000NLF Narrow Frame & Hinged Lid (4/box)
125-1064	Optional dual key locks

Narrow frame vs. Regular frame
