

1. PRODUCT SUMMARY

The patent-pending Primex Rail Mounting Plate and brackets allow for the quick and easy mounting of hardware and fiber accessories in the P2100, P3000, P4200, and P6300 Primex Verge Media Distribution Enclosures.

The RMS brings the simplicity and security of component mounting from the PR2300 to the rest of the Verge product line. The toolless ABS plate and brackets install quickly and securely with a low profile footprint.

2. PRODUCT DIMENSIONS

H: 7" or 10" / W: 13.25" / D: 0.5"

3. FEATURES & BENEFITS

Mounting System:

- Patent-pending plate and bracket system for quick and easy component mounting inside Primex P2100, P3000, P4200, P6300 Media Distribution Enclosures.
- Brings the ease and simplicity of mounting from the Primex PR2300 to the rest of the Verge product line.
- Toolless brackets securely hold modems, ONTs, UPS' and fiber management accessories.
- Single, double, and keyhole brackets to mount almost any component.
- Lightweight ABS is easily installed with two-piece snap in pushpins (base and pin).

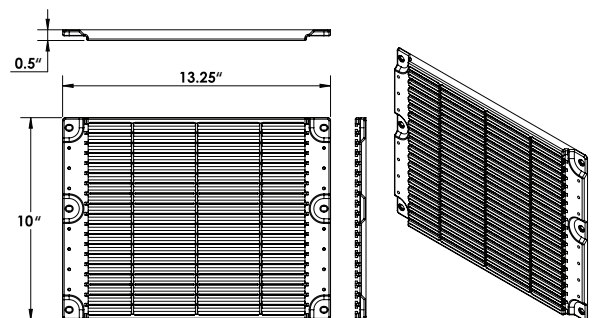

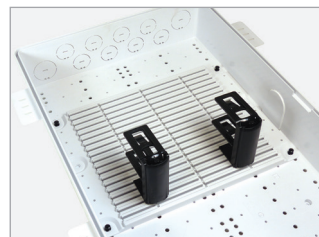

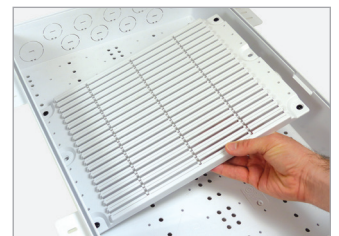

4. CONFIGURATIONS

Part #	SC	Description
